

Expression of Interest - The People's Platform

We want to collect stories that reflect the diversity of people and communities across Wales. This form helps us know a bit more about the organisations getting involved and the stories that are likely to be collected. We are seeking stories of people's thoughts and experiences and will be using these stories and data to inform our work, it is anticipated that we will be able to share this data with other organisations such as yours to help better implement the [5 ways of working](#).

The toolkit and SenseMaker survey have been designed to be easy to use, however please indicate below whether you feel your organisation would require training.
